

FUNDRAISING

We like to help where we can!

We can help solve that money puzzle!

HOW IT WORKS?

The money puzzle is how to obtain funds, the answer, from the services we provide.

The majority of your volunteers / supporters or members are all on the internet, have a landline, mobile or mobile broadband. Those funds and profit are going straight to their current provider without any benefits to your organisation or your volunteers / supporters or members.

05Communications can change all of that by your organisation advising your supporters to think about moving over to us. Our prices are, in fact, similar or cheaper than other providers.

By moving their services to 05Communication, it will attract extra funds to your organization as

- any services moved to 05Communications creates an ongoing income stream every month for as long as they are with us. A proportion of their monthly fee is automatically banked every month to your organisation. Your organization will receive a list of the people who are participating and the amount due in every month.

To be part of this, just let us know. We will then allocate an **accounts manager** to look after all your volunteers / supporters or members so they have personal contract with a real person should the need arise.

Next, promote our services to your volunteers / supporters or members by referring them to our website and this flyer and finally, check your bank account each month to ensure the funds are there.

There are also benefits to your volunteers / supporters or members:

- They are providing much need funds back to your organization from services they are already using. They pay the exact price that our normal customers pay. Prices are not inflated.
- Less fundraising activities. Their time allocated to raffles, sausage sizzles and chocolate drives will become non existent.
- There is a loyalty program attached to all our services. This allows your volunteers / supporters or members to share in our success
- We provide them with the opportunity of eliminating their 05Communications bill through our resellers program, by them referring others to us. These referrals also creates further monthly ongoing revenue back to your organization.

For your volunteers / supporters or members to join and move services to us, go to our website, nominate the services they would like, download our applications and fill it out and send to us. Where it states referrer they insert your organization's name. When we receive the application they will be contacted to confirm the organization and we will then advise you who has joined.
